LASTING EXPRESSIONS

STENI VISION

Create unique façade expressions with STENI Vision. The design and decoration options are almost limitless; use your own photos or illustrations and combine them with other motifs. The panels are made of stone composite, which requires minimal maintenance and have 60-year documented lifetime expectancy.

THE ARCHITECTURAL FUNCTIONS OF STENI VISION

INTEGRATION ADAPTIVE FUNCTION

Adapt and add value to your surroundings, by blending in or by adding a new perspective.

INFORMATION CLEAR MESSAGE

Information helps people make choices. Give a clear message on who, what, where and why.

IDENTITY PERSONAL TOUCH

Stand out by giving the building a unique personality and attitude.

ILLUSION DECEIVING AESTHETICS

Things are not always what they seem. Optical illusion can be a powerful tool to enhance your architectural expression.

STENI'S WORLD OF SURFACES

COLOURS

Colours create moods: blue for calm, yellow for joy, red for energy, green for harmony – the whole spectrum. Standard colours or a shade suited to your personality. Bright colours, soft colours, coordinated tones, patterns and markings, or combined with other materials – the universe of colour is yours to explore!

TEXTURE

Texture adds character. A hand stroking a coarse, stony crag and a smooth rock – feel the difference! Crushed natural stone, from fine grain to coarse structure in Mother Nature's own shades. A rough surface that adds substance, or a soft, light expression?

GLOSS

Gloss defines how the light interacts with the surfaces: matt, half matt or high gloss – a soft, harmonious idiom, or surfaces that shine like mother-of-pearl? Different degrees of gloss can subtly alter colours and visual impressions. Playing with gloss levels adds life and personality.

PRINT

Your own personal signature: graphic elements, drawings, photos and patterns create your own bespoke expression. Build identity and reflect function and history. Identity, illusion, integration, information – aesthetics never seen before.
